1 Purpose

Following this procedure will help the Trust to:-

- provide good, fair and equitable rostering
- ensure that the rostering process is fair and transparent as possible without prejudice to either staff or service users
- ensure that work is distributed appropriately and fairly with the right people with the right skills in the right place at the right time.
- minimise clinical risk associated with the level and skill mix of staffing levels
- ensure safe / appropriate staffing for all departments using fair and consistent rosters
- improve the utilisation of existing staff and reduce bank, agency and overtime spend by giving Ward Managers and Senior Managers clear visibility of staff contracted hours and availability
- improve monitoring of sickness absence by department / ward and / or individual, generating comparisons, identifying trends and priorities for action.
- improve planning of clinical and non-clinical unavailability working days (e.g. annual leave, sickness and training)
- provide effective management of staff.

2 Related documents

This procedure describes what you need to do to implement the Staff Rostering section of the During Employment Policy.

The During Employment Policy defines principles which you must read, understand and be trained in before carrying out the procedures described in this document.

This procedure also refers to:-

- Sickness Absence Management Procedure
- Travel and Subsistence Policy
- Staff Development Policy
- Flexible Working Procedure
- Standard Process – Safe Staffing Escalation
3 The rostering process

The Trust is committed to ensuring that the rostering process is fair and transparent as possible without prejudice to either staff or the patients whose care we strive not to compromise in any way. Staff rosters are one of the fundamental systems used to plan the delivery of care to our patients. It is therefore essential that they are drawn up in a timely and appropriate manner, maximising the benefits for patients and without incurring any unnecessary expenditure. For staff to be able to achieve a good work life balance, rosters must be drawn up giving maximum notice and taking reasonable account of the needs and wishes of individual members of staff.

Good, fair and equitable rostering is necessary to contribute to the achievement of the Trust’s Vision and Values. All people using our services as well as our staff have a right to expect the best possible support from the Trust. To do this we must ensure that work is distributed appropriately and fairly with the right people with the right skills in the right place at the right time. This must be based on the people using our services.

This document is to provide the principles upon which all working patterns must be based.

4 Scope

We use HealthRoster to ensure rosters are safe, fair, effective and efficient as well as meeting with the Working Time Regulations and other legislative requirements.

This procedure also covers compliance with Section 27 of the Agenda for Change Handbook which covers Working Time Regulations (WTR). This handbook should be read in conjunction with this procedure and where full details of the restrictions on working time necessary to comply with the WTR can be found.

4.1 Who this procedure applies to

This procedure applies to:

- All rostered staff (not just those working a variable shift pattern) across the Trust and will assist in the production of rosters based on funded establishments as agreed in budget setting.
- It should be used by Service Managers / Ward Managers in the development of local protocols on safe staffing.
## 4.2 Roles and responsibilities

<table>
<thead>
<tr>

</tr>
<tr>
<td>Working rosters should be amended to reflect what has been worked in ‘real time’ to ensure accurate payment and management information</td>
<td>✓</td>
<td></td>
</tr>
</tbody>
</table>

**Individual staff members** are responsible for adhering to the principles as outlined in this procedure.
5 Key Themes

5.1 Flexible Working

The Trust supports the principles regarding work life balance and flexible working. However, this should be set against the need to ensure safe levels of staffing to maximise the quality of patient care and reduce clinical and non-clinical risk.

Achieving adequate staffing numbers and appropriate skill mix is the main priority as is having the right people, in the right place at the right time delivering high quality care.

Therefore, managers are able to decline requests if the service cannot support them and any individual request should be considered using a trial period initially; this should be reviewed and a decision made as to whether this is then made permanent.

The Trust’s Flexible Working Procedure should be followed for any flexible working application. Flexible working practices will be at the discretion of the senior nurse / managers.

5.2 Working Time Regulations / Opt Out

It is the responsibility of ALL employees to ensure compliance with WTR. Further information regarding WTR can be found in section 27 (part 4) Employee Relations of Agenda for Change (AfC) for Working time Regulation requirements. However the key requirements are highlighted below.

- Every shift exceeding 6 hours must include at least 20 minutes unpaid break.
- Breaks cannot be taken at the beginning or end of a shift as their purpose is to ensure that staff take rest time during the shift.
- Staff should not work more than an average of 48 hours per week over a 17 week reference period. This total includes hours worked in all employment including bank, overtime and agency, whether for the Trust or any other employer.
- All staff who secure additional employment internal or external to the Trust must declare this and complete the form DECLARATION OF ADDITIONAL EMPLOYMENT INTERNAL/EXTERNAL TO TEES ESK AND WEAR VALLEYS NHS FOUNDATION TRUST. A copy is attached as Appendix 2
- All members of staff who wish to exercise their right to opt out of the 48 hour working limit must do so in writing using the Trust Opt out Form (Appendix 3). Staff members who formally opt out of the 48hour working limit must not exceed 60 hours per week over a 17 week reference period (Managers to be alerted at 50 hours).
- Members of staff who do not wish to opt-out will not suffer any discrimination.
- Under the WTR night staff cannot opt out of the 48 hour maximum. Night staff are defined in the WTD as;
  - if you regularly work for at least three hours during the night time period either:
    - on most of the days you work
• on a proportion of the days you work, which is specified in a collective or workforce agreement between your employer and the trade union often enough to say that you work such hours on a regular basis (e.g. a third of your working time could be at night, so you would be a night worker)

• Night workers’ “normal hours” should not exceed more than an average of 8 hours per night over a 17 week period. However there are exceptions and, subject to the provision of compensatory rest, the night work limits do not apply in the circumstances listed below. An example is given in Appendix 2.

• Where there is a need for continuity of service or production e.g. health care; work at docks and airports; press, radio, television etc.; gas, water and electricity production; industries in which work cannot be interrupted on technical grounds; research and development activities, the carriage of passengers on regular urban transport services;

• Where there is a foreseeable surge of activity;

• Where the worker’s activities are affected by an unusual and unforeseeable circumstances/exceptional events; or an accident or the imminent risk of an accident.

• Where the worker is engaged in security and surveillance activities and a permanent presence is required;

• Working Time Regulations states a minimum daily rest period of 11 hours between shifts and a rest period of 24 hours in each 7 day period. However, while this is good practice and should be considered in the generation of rosters there are a number of special circumstances in which the entitlement to rest periods does not apply, for example, where the activities involve a need for continuity of service or production or where there is a foreseeable surge of activity. Also, if a shift worker changes shift, it may not be possible for them to take their full rest entitlement before starting the new pattern of work. In such a case the entitlement to daily and weekly rest does not apply.

5.3 Skill Mix and Shifts

Each area has an agreed funded establishment. Minimum staffing levels (number of WTE staff) and skill mix (combination of grades, competencies and any specific requirements i.e. gender) by shift and by day must be agreed and reviewed in light of any significant change to the ward / team / department function but at a minimum on an annual basis linked to budget setting. It is advisable that a 6 monthly review should be considered and undertaken where appropriate.
• Where there is a requirement to change the budgeted establishment, skill mix or shift patterns, you should adhere to the process outlined in section 7.
• In areas where the workload is known to vary due to several factors e.g. clinical risk etc., staff numbers and skill mix should reflect this.
• The off duty of senior staff must accommodate both ward / team and management requirements e.g. need to attend meetings etc.
• Ward / team Managers should only work weekends with prior approval from Line Manager or for a specific reason e.g. ad hoc supporting and supervision of staff.
• Ward / team Managers must generally be available Monday to Friday. Ward / team Managers should not be routinely rostered on night shift
• In clinical areas there should be a designated nurse in charge who has been identified as having the required skills and competencies.
• Student nurses should be rostered with their mentor as much as possible, meeting University guidelines. If their mentor is unavailable, an associate mentor should be allocated.
• Shift patterns should maximise staff rest time wherever possible e.g. staff should have 2 consecutive days off each week.
• Consideration should be given to flexible working; however, this needs to be fair and equitable to all staff.
• Staff may be required to work a variety of shifts and shift patterns as agreed by their Manager. All staff with 24 hour working contracts should work nights, unless by prior agreement involving their line manager, HR and occupational health, if required.
• There will be no contracted permanent night working in order to fulfil mandatory requirements for training and to ensure an appropriate level of clinical skills.
• Staff may work short, standard or long shifts or a combination of all in order to meet clinical or occupational health requirements. Variations to these shifts may be worked but must be agreed with the Manager. A written record of the shift agreement will be kept for variations in shifts and will be reviewed annually by the Manager in line with the Flexible Working Policy.
• The maximum number of consecutive standard day shifts for staff to work is 7
• The maximum number of consecutive long days for staff to work is 4
• Night shifts should be kept together where possible with no more than 4 consecutive night shifts being allocated to a staff member.
• There should be a minimum of 1 and preferably 2 days off after being rostered for night shifts. This would commence on the day after finishing the night shift e.g. if the night shift finished at 8am on the Monday, the days off would commence on the Tuesday with potential to commence work again on the Wednesday if only 1 day off given.
• Individual areas to adhere to locally agreed shift patterns
5.4 Long Days (>10 hours)

In areas where long days are worked:

- Within a long day that is greater than 10 but less than 12 hours there must be appropriate breaks of not less than 1 x 20 minutes which must be taken following 6 hours worked.
- When hours worked exceeds 12, breaks totalling a minimum of 40 minutes must be incorporated which may be allocated in slots during the course of the shift. The breaks must not be taken at the beginning or end of the shift.

In clinical areas the nurse in charge will allocate and negotiate break times at the commencement of each duty. It is proposed that the service would have break slots across the day which staff would be allocated to. Every attempt will be made to accommodate breaks. It will only be for exceptional clinical reasons that breaks cannot be taken. Where this has occurred this will be noted on the roster and compensatory time given.

5.5 Staff Unavailabilities

Following implementation of HealthRoster the processes for staff requests outlined below will apply.

- The Trust expects managers to be sensitive to the cultural needs of staff and supports flexible working and a good work life balance. However, staff need to be aware that requests may not always be granted and service needs will take priority.

For areas which are not currently using Electronic Rostering, the process of requesting shifts and annual leave can be locally determined e.g. request book, however the following principles should be included:

  - Systems for staff to request shifts should be available for a minimum of 4 weeks in advance to ensure fairness for all staff.
  - Requests will be considered in light of service needs to a maximum of 6 requests for staff on short shifts and 4 requests for staff who work long shifts.
  - Requests for popular periods (Bank Holidays and School Holidays) should be considered equitably.
  - Personal patterns are not to be considered as requests
  - Requests for flexible working patterns will be considered in accordance with the Trust’s Flexible Working procedure.

- To ensure fairness of the roster the system will show where shifts have been requested, this will give the ward / team manager and employee the ability to ensure that fair play has been applied to all requests made.
- All annual leave must be booked using the Employee on-line system, where available.
- For staffside representatives whose role involves the allocation of shifts on HealthRoster they will not be expected to utilise their 4 requests for staffside duties. This will require agreement with individual’s line manager. HealthRoster should be updated as “unavailability” “working day” “staffside duties”.
## 6 Procedure

### 6.1 Principles for Producing a Roster

When producing a roster, you must include the following principles:

- **All duty rosters should be hours based e.g. for full time staff this equates to 150 hours over a 4 week period. This is pro rata for part time staff.**

- **Due to the various shift patterns in operation across the Trust it may not be possible to allocate the 150 hours exactly over a 4 week period. Where this occurs individuals should not be more than 1 shift length over or under the 150 hours.**

- **An approved duty roster should be published at least 6 weeks in advance using HealthRoster where implemented and in accordance with the roster calendar.**

- **A working roster should cover a period of 4 weeks**

- **All wards / departments / teams rosters must commence on a Monday**

- **Permanent staffs' contracted hours must be used to cover as many different shifts as possible. This will help to ensure that temporary workers, if used, are working with regular staff.**

- **The roster must reflect the skill mix and number required and should not include staff or skills over the required level where this may cause shortfalls on other shifts or the need for temporary workers. Senior staff should not be on duty together except where necessary.**

- **The roster must show who is in charge on each shift.**

- **All shifts should be equitably allocated to all staff in accordance with their contract of employment and the Trusts Flexible Leave Procedure**

- **Only once all permanent shifts have been allocated, other shifts should be made available for nurse bank coverage. The Trust's nurse bank, agency, overtime protocols should then be followed to fill any gaps.**

- **Rules relating to all types of leave, most importantly annual leave, study leave and Working Time regulations should be adhered to as set out in this policy and other Trust policies.**

- **Any additional hours created are to be used in exceptional circumstances i.e. enhanced observations etc. and that additional duties are not used to cover any item that is ordinarily defined within the headroom of the ward budgets e.g. annual leave, training, sickness etc.**

- **When compiling a roster the relevant Ward / Team Managers or nominated deputy will undertake the monitoring of each wards / team roster upon completion, produce analysis reports (utilising the functionality of the electronic solution) and approve all shifts where temporary workers are requested.**

- **If any of the staff are working non-standard start or finish times this should be recorded on the roster to ensure and accurate record is made of staff movement and to avoid misinterpretation.**

- **When compiling a roster the relevant Ward / Team Managers or nominated deputy will must ensure that all hard to fill shifts or high priority shifts are filled first with substantive staff.**
6.2 Staff Changes to the Roster

All staff changes to a published roster should be kept to a minimum to avoid disruption to shift patterns and to minimise the impact on patients.

- Staff wishing to alter their roster should, in the first instance, attempt to swap shifts with other appropriate team members. Changes should be made with consideration to overall skill mix of all shifts being exchanged.
- All changes requested by staff must follow the principles outlined in the staffing and skill mix section and be authorised by either the Ward / Team Manager or designated deputy before the start of the shift and should not result in overtime, bank or agency usage. Only in exceptional circumstances can changes be made and retrospectively approved by the ward / team manager or deputy.
- Following publication of a roster, a Manager should only change a staff member's shifts if it is reasonable to do so and following consultation with the member of staff. It would be deemed reasonable if service need has dictated this and reasonable notice has been given.
- When there are unforeseen circumstances, i.e. a member of staff going off sick at short notice, the Ward / Team Manager must take the following steps and consult the Trust escalation procedure if required (Appendix 12) to secure appropriate cover (this may not always be for the whole shift):
  1. Reconfigure roster utilising additional resources from other areas.
  2. Request a full time member of staff to work additional hours and take time owing at a later date.
  3. Request a part time member of staff to agree to stay on and work additional hours (ensuring this does not exceed 37.5 hours).
  4. Secure bank worker via central bank services or associated procedures
  5. Following agreement from the ward / team manager, a member of staff will be asked to work additional hours as overtime this should be paid in line with Agenda for Change Terms and Conditions.
  6. Following agreement from the ward / team manager, request agency cover (if appropriate).
- The senior staff must authorise any additional hours that are granted as overtime. Only in exceptional circumstances can overtime be agreed and retrospectively approved by the senior staff.
- If staff are allocated to a student they should not change their shift without ensuring the student either changes with them or is allocated to another suitable member of staff, and that this is identified on the roster.
- All staff must be made aware that they may at times be requested to move temporarily within the Trust to cover unfilled shifts e.g. sickness absence. In these circumstances the Trust Travel Policy will apply.
6.3 Staffing shortages and Escalation

When staffing shortages are identified due to either staff absence, patient acuity or any short term situation the following process outlined in appendix 14.

All staff moves as a result on an escalation must be recorded on HealthRoster

6.4 Unavailabilities

6.4.1 Annual Leave

Annual leave is to be used within the context of the Agenda for Change Terms and Conditions of Service. The Trusts annual leave period is identified as 1st April to 31st March.

- The following minimum standards must be attained:
  - The annual leave entitlement for clinical staff will be calculated in hours.
  - Any annual leave taken will be calculated on an hourly basis for each day taken.
  - No holiday bookings should be made until the line manager has sanctioned the annual leave request using HealthRoster.
  - Any annual leave accrued during a period of long term sickness should be used to facilitate a phased return to work.
  - Annual leave for those working nights will commence following the individuals rest period i.e. if the last night shift finishes at 6am on the Monday, the Tuesday would be classified as the rest period and annual leave would commence on the Wednesday.
  - Depending on local requirements all annual leave should be submitted and recorded in HealthRoster prior to the commencement of the annual leave year, with 20% allocated to each quarter. Staff should retain 1 week or 20% of their entitlement for emergency situations.
  - Permanent staff should request and take 80% of their annual leave entitlement across the annual leave year. This should be managed using the financial quarters of approximately 20% per quarter except:
    1. By prior arrangement with the line manager
    2. Due to the needs of the service
    3. As a result of ill health / maternity leave
    4. Other exceptional circumstances e.g. suspension

- Annual leave must be booked, approved or cancelled before a roster is produced and published.

- If a member of staff needs to delay or amend an annual leave booking this will be considered, taking into account local service needs, provided it does not incur extra expenditure.

- Senior staff are responsible for ensuring that the total amount of leave taken by staff each week falls within the band of a minimum of 11% to a maximum of 17% and should also reflect staffing and skill mix (see annual leave algorithm at Appendix 1)
Each ward / team Manager is responsible for calculating the number of qualified / unqualified staff who must be given annual leave in any one week ensuring the 11-17% tolerance. An agreed number should be explicit and adhered to. Staff should be aware of the need to maintain this number throughout the year in order to effectively manage the workforce to meet service need. Should the number not be met by ways of request, the ward / team Manager will allocate leave following discussions with the staff concerned.

Requests for religious or cultural festivals should be agreed within each directorate. Staff should be notified if their request has been approved with a minimum of 6 weeks in advance. Ward / team Managers must be sensitive to the cultural needs of staff. However, staff should to be aware that requests may not always be granted. If annual leave is granted on a weekly basis over busy holiday periods then bookings must be considered taking account of local service needs, staffing and skill mix and authorised only if it does not incur extra expenditure.

Quarterly reviews of outstanding leave for each member of staff should be made by the ward / team Manager to avoid accumulation of untaken leave.

A maximum of two weeks continuous leave can be booked together unless an application to the ward / team Manager has been made under special circumstances.

Staff who, unless by prior agreement, do not book their leave in conjunction with the policy will be informed by the ward / team manager that it will be automatically allocated to avoid a high percentage of annual leave outstanding at the end of the leave year.

It may not be presumed that all annual leave for new starters will be honoured. This will need to be negotiated to ensure clinical requirements are met.

The total amount of leave to be granted should not be increased because of difficulties and cost of obtaining temporary workers. Discussions between those requesting school holidays off are encouraged so that each member of staff has an equal chance of being granted leave.

Local procedures must state how annual leave is to be allocated when there is more than one request for the same period. The ward / team manager should make their objective decision following discussions with the staff concerned, taking all factors into account.

The 2 week period covering Christmas and New Year must be defined for the service in terms of how this will be managed in terms of rostering and annual leave management. This will form the basis of a local agreement, where this is in place this must be adhered to.

Managers to ensure rosters are fully approved prior to the closing date for payroll usually 3pm on the 6th of each month

6.4.2 Unsocial hours / Time Owing

Unsocial hours will be paid in accordance with Agenda for Change terms and conditions

Time owing occurs when there is an unplanned requirement to extend the length of the shift. This should be recorded as time owing on the roster.

As an alternative to overtime staff are able to request and accrue time off in lieu (time owing) for hours worked in excess of their contracted hours. However, time off in lieu of overtime payments will be at plain time rates.

Any time over/above shift times should be authorised by the nurse in charge and recorded.

Any time claimed back must be recorded on the off duty and signed for by the nurse in charge (clinical areas).

Local procedures should be in place for the process of authorising time owing which should be taken by joint agreement and should reflect principles outlined in this policy.
• Retrospective agreement will only be given where there was a clear and urgent service need. In either case the reasons must be recorded and signed by both the nurse in charge (clinical areas) and the staff member concerned. A record should be made on HealthRoster.

• Ward / team Managers must ensure that no more than 15 hours’ time owing either way is allowed. In the event of accumulating time owing in excess of 15 hours, this must be authorised by the ward team manager or deputy at the first possible opportunity.

• Hours agreed above 15 hours should be taken within 3 months and any difficulties in achieving this must be brought to the attention of the ward / team Manager or nominated Deputy. Ward / team Managers may not unreasonably refuse to allow time off in respect of time owing, however where this is unavoidable it will not result in any loss of hours. Ward / team Managers must confirm in writing the reasons for any decision made relating to this.

• Staff unable to take time owing within three months for operational reasons must be paid at the overtime rate in line with section 3 Agenda for Change Terms and conditions. If a staff members requests for time owing are not met due to operational reasons the time owing can be allocated by the Manager.

• Booking of time-owing should follow the same principles as for annual leave in that it should not incur unnecessary expenditure.

6.4.3 Overtime

• Agenda for Change Terms and Conditions defines overtime as any extra time worked in a week, above standard hours. Part time employees will not be entitled to overtime until they exceed the standard hours of 37½ hours a week. For those staff working a defined shift pattern the full-time hours worked will be over a defined reference period.

• If a shift has been allocated to a member of staff which is over and above their contracted hours and is planned; this should be recorded as overtime. Staff may request to take time off in lieu as an alternative to overtime payments but this will be at plain rate.

• All staff in pay bands 1 – 7 will be eligible for overtime payments.

• All overtime approved will be paid in line with Agenda for Change Terms and Conditions.

• When staff are on annual leave they should only be requested to work overtime or excess hours when all other options have been explored. Staff members on Annual leave cannot work in excess of 15 hours over their contracted hours per week. As overtime on Annual leave should only be requested in exceptional circumstances, authorisation must be given by a senior manager or nominated delegate within office hours. Out of hours, authorisation should be given by a nominated deputy within the clinical area.

• Legislation states all staff must have a minimum of 20 days annual leave plus 8 days bank holidays. If over time is requested during leave it must not exceed this. For example: a member of staff with 27 days annual leave plus 8 Bank Holidays could not do more than 7 overtime/excess shifts during their annual leave in any financial year.

• Trust support workers who are seconded to undertake the Degree in Nursing Studies Registered Nurse Programme will not be entitled to any additional overtime, and will not normally be allowed to take up paid employment with another employer. If they intend to request any casual work, such as bank nursing, with us or any other employer, the worker should contact the Human Resources Department as this may have implications for Trust bursary and/or your employment break status.
6.4.4 Booking of Temporary Workers

- Temporary workers should be booked through the electronic solution. On completion of a roster, following review and agreement by the Senior Staff, requests for temporary workers should be forwarded at the earliest opportunity to the Temporary Staffing Service.

- No replacement workers should be booked without assessing the need for them, the grade required and the time they need to start and finish. Temporary workers shifts may only be authorised by senior staff if requests meet the following criteria:
  - Within budget unless service need dictates
  - Within existing vacancies
  - To cover unpaid leave
  - It is not acceptable to exceed the documented headroom allocated for each ward / team.
  - Temporary workers required outside these parameters must be discussed and authorised by the Service Manager.
  - Temporary workers should not be used to take charge of departments unless they have previous work experience in the ward / team / department and have been assessed as competent to do so, and are willing to take charge.
  - Staff absent due to sickness must not undertake bank or overtime/excess hours work for a period of 5 days following a return to work.
  - During a graduated return it is not acceptable for a staff member to undertake any bank or overtime / excess hours. This is applicable for the full duration of the graduated return.
  - Staff who wish to work additional hours/ bank / overtime during annual leave should still ensure that appropriate rest from work is taken. In line with the Working Time Regulations, a minimum of 20 days of annual leave should be taken as rest per year and as such the amount of leave that can be worked as bank / overtime/ additional hours will vary between individuals.

6.4.5 In Work Breaks

- Working Time Regulations state that all staff should have a minimum of twenty minutes unpaid break during any period of work in excess of 6 hours. During that break period they should be free to leave their workstation should they wish to do so. Where a member of staff is recalled to the workplace, (should circumstances demand) this will be a paid break and the finish time of the shift will not be extended by the length of the break.

- In exceptional circumstances where an unpaid break cannot be taken, a record must be made on HealthRoster indicating the circumstances why this was not possible and this should be regularly reviewed by the ward / team Manager.

- The Person / Nurse in charge (clinical areas) of a shift is responsible for ensuring that breaks are facilitated.

- Unpaid breaks are taken outside of staff members weekly contracted hours.

- Staff will be given time in lieu if for clinical reasons breaks are unable to be taken. Lieu time cannot be taken on the same day in which it was accrued.
• Reference should also be made to the local in work breaks protocols, where available.

6.4.6 Study Leave

• Depending on the course and appropriateness of the training, study leave may be assigned as part of contracted hours.
• It is not appropriate for individuals to undertake study leave during a period of rest or a day off.
• Study Leave will be assigned in line with the Trust's Learning and Development policy.
• Managers should ensure that mandatory training is balanced throughout the year giving consideration to staffing and skill mix.
• Where appropriate study leave should be assigned as part of contracted hours and all study leave must be clearly recorded within rosters.
• Study leave should not be covered by temporary workers unless in exceptional circumstances and with prior agreement of the ward / team Manager.

6.4.7 Sickness

• Sickness should be managed in accordance with the Trust's Sickness Absence Management Procedure.

6.4.8 Christmas and New Year Leave

• Christmas and New Year leave should be managed in accordance to local procedure.

7 Approval, Changes and Review

7.1 Roster Approval and Sign Off

The full roster approval and sign off process is outlined in Appendix 8.

7.1.1 Roster Approval

Both the ward manager and the Modern Matron/Locality manager are required to be involved in building and approving a future roster to provide both a 1st line validation and 2nd line validation. This process must take place and be completed to allow rosters to be published 6 weeks in advance of being worked.

All units that do not publish rosters on time will be reported to OMT.

Ward managers are responsible for building the rostering to an agreed process that must be followed and validated by a modern matron or locality manager. This covers the following areas;

Ward Manager (First Validation)
• Approve / Rejecting Staff Requests
• Checking staff changes are reflected in the roster
• Running auto roster for person patterns then nights then days and manually assigning any remaining duties
• Review Time owing and unfilled shifts

Modern Matron (Second Validation)

• Annual leave allocated matched to allowance
• Hard to fill shifts are filled
• Appropriate skill mix has been applied

**Appendix 9 – Ward Managers Rostering Checklist** and **Appendix 10 – Modern Matrons/Locality Manager checklist** can be used to ensure appropriate areas are assessed prior to the roster being signed off.

### 7.1.2 Finalising a Worked Roster

Every roster is required to be finalised by the 6th of each month to allow shifts and hours worked to be processed by payroll as well as releasing the data for trust reporting purposes.

![Warning]

This process must be completed to ensure rostered employees are paid correctly and in time. All wards that are outstanding by 6\(^{th}\) will be reported to OMT as outlined in the Roster finalisation escalation process in Appendix 6.

Ward managers are responsible for finalising their rosters, during this process the ward manager confirms that the roster is an accurate reflection of the staffing on the ward the rosters should be kept up to date with a validation carried out before signing off, which includes confirming;

• All daily expectations are included in the roster
• Entering Sickness
• Cancel shifts not covered
• Time adjustments to shifts
• Shift swaps
• Shift covered by a community team

Once confirmed as accurate the roster can be finalised by the Ward manager or Modern Matron.

![Warning]

When the Ward Manager has shift variations the roster is required to be signed off by either a Modern Matron or locality manager.
7.2 Changes to the Roster Templates

From time to time it is necessary to amend wards establishment budgets and pattern to reflect changing circumstances on the wards. All changes must follow a defined process for authorisation, to comply with the Standard Financial Instructions before implementation. All changes must follow one of these routes:

1. Agreed in the annual Roster Review with a Locality Manager and Service Accountant present. A report of the roster review including all agreed changes will be shared with all parties prior to changes being implemented.
2. Agreed by OMT, EMT or agreed with the Locality Accountant and Locality Manager and then be submitted to the Information Clinical and Engagement Lead who will complete a Change request to RADAA for implementation.

The full process for changes is outlined in Appendix 7 – Roster Change Control Process

7.3 Roster Reviews and Audits

A roster review is required to be carried out every 12 months to ensure rostered units establishments and rules are still appropriate. A smaller roster audit is recommended at the 6 month interval to check compliance to the roster policy and address any issues that may have developed.

7.3.1 Daily Staffing Review

A daily staffing review should take place within the daily clinical huddle to identify and address any deficiencies with the roster and escalate where appropriate.
7.3.2 Roster Review

The following individuals are required to conduct a roster review;

- The Ward Manager
- The Modern Matron or/and Locality Manager
- The Locality Accountant
- Information Representative

A roster review is an opportunity to review the wards establishment against patient acuity while also ensuring best practice is maintained in the shift patterns. The following areas will normally be covered in a roster review;

<table>
<thead>
<tr>
<th>Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Headroom and usage of annual leave, study leave, sickness, maternity leave and other leave</td>
</tr>
<tr>
<td>Approval and finalising rates</td>
</tr>
<tr>
<td>Contracted hours not used per month</td>
</tr>
<tr>
<td>Additional shifts and reasons for booking</td>
</tr>
<tr>
<td>Working restrictions</td>
</tr>
<tr>
<td>Auto Roster</td>
</tr>
<tr>
<td>Number of Bank Requests to hours worked and usage on weekend and night duties</td>
</tr>
<tr>
<td>Establishments and Shift Patterns</td>
</tr>
</tbody>
</table>

A full list of all areas that are covered in a roster review is attached in Appendix 11 – Roster Review Checklist

The items covered in a roster review are also reported on centrally and internally monitored by the Trust Board and OMT.

7.3.3 Roster Audits

In-between roster reviews it's possible to request a roster audit to help ensure the unit's roster remains suitable and help identify and rectify issues with the roster. These sessions are tailored for each unit and provide the opportunity to gain additional assurance that the use of electronic rostering remains appropriate and complies with best practice. To request a roster audit please contact your Information Locality and Service Engagement Manager.

7.3.4 Roster Improvement

Either though a Roster Review, Roster Audit on ongoing monitoring by stakeholders, when a deficiency is identified it is the wards responsibility to proactively manage the deficiently and implement appropriate remedial action. Where appropriate the deficiency or risk should be escalated as outlined in the Risk Management Policy.

9  How this procedure will be implemented

- This policy will be published on the Trust’s intranet and external website.
- Line managers will disseminate this policy to all Trust employees through a line management briefing.
- All staff have a responsibility for ensuring that this policy is effectively implemented
- This policy will be embedded into the Roster Review Process and discussed with relevant Ward managers and Modern Matrons/Locality managers on a regular basis.

10  How this procedure will be audited

Compliance to the procedure will be audited in the Roster Reviews and Roster Audits.

- Working Time Regulations 1998
- Section 27 of the Agenda for Change Handbook, Working Time Regulations.
- Agenda for Change handbook
12 Appendices

12.1 Appendix 1: Annual Leave Algorithm

Ward X has **15 WTE** qualified staff and **7 WTE** unqualified

The percentage of staff on annual leave at any time is **14.0%**

(this is between the tolerance of 11% - 17%)

Therefore:

\[
\begin{align*}
15 \times 0.140 & = 2.10 \quad \text{2.00 WTE} \\
7 \times 0.140 & = 0.98 \quad \text{1.0 WTE}
\end{align*}
\]

You would need to try and allocate approximately 2 qualified staff and 1 HCA per week on leave to achieve balance over the year.

Please note: This number is based on WTEs in post; therefore as staff join and/or leave you will need to recalculate the above.
12.2 Appendix 2 – Calculating average night hours worked

How to calculate the average night hours worked. (Example from Direct.Gov)

1. Multiply the number of weeks in the reference period (17) with the number of hours you work each week: 17 x 37.5 = 637.5

2. In a 17 week period there are 119 days (17 x 7). You are entitled to take 17 weekly rest periods, therefore the number of days you could be asked to work is: 119 – 17 = 102 days

3. To calculate your daily average working time, your total hours is divided by the number of days you could be required to work: 637.5 divided by 102 = 6.25 hours

So you would have worked an average of 6.25 hours a day, which is within the night work limit
12.3 Appendix 3 – Declaration of Additional Employment

DECLARATION OF ADDITIONAL EMPLOYMENT INTERNAL/EXTERNAL TO TEES ESK AND WEAR VALLEYS NHS FOUNDATION TRUST.

Name: ..........................................................................................................................

Job Title: ......................................................................................................................

Directorate: ..................................................................................................................

I wish to inform you that I hold an additional contract for ................ hours:

I hold an additional contract within the Trust

I hold an additional contract outside of the Trust

I have read and understood the Trust Working Time Policy and should my working hours exceed or come close to 48 hours in total over an average 17 week reference period, I will highlight this to my manager to determine if an opt out form should be completed.

I confirm I have signed this agreement voluntarily.

Signature: ...................................................... Date: .................

Copy: Personal File

Human Resources
12.4 Appendix 4 - Agreement to opt out of the Working Time Regulations

The Working Time Regulations 1998 state that an employee cannot be required by their employer to work more than an average of 48 hours each week (including any hours worked in a second job in or outside of the Trust), over a seventeen-week reference period. However, some employees, from time to time, choose to work more than an average of 48 hours each week. In order to meet the regulations, employees are required to sign an individual 'opt-out' agreement, agreeing that this limit will not apply to him/her. In this case the employee should complete this agreement and return it to their line manager.

The sole purpose of this agreement is to ensure that the Trust’s current working practices comply with the law. There will be no change to terms and conditions of employment.

Employees who have concerns about this agreement should discuss them with their line manager or seek further advice from a member of the Human Resources Department.

---

Individual Agreement

This agreement is optional, and is signed by the employee after reading Agenda for change section 27 : working time regulations.  
www.nhsemployers.org/SiteCollectionDocuments/AfC_tc_of_service_handbook_fb.pdf

1. I wish to inform you in writing that the average 48 hour weekly limit, as specified in the Working Time Regulations 1998, shall not apply to me.
2. This agreement shall apply from the date of signature given below.
3. I acknowledge that I must give my employer one week’s notice to terminate this agreement in writing.
4. In requesting to work in excess of average 48 hours, I am aware of my responsibilities not to work such hours as that may impair my safe working, or expose my colleagues or patients of the Trust to any risk.
5. This agreement will be reviewed annually.
6. I confirm that I have signed this agreement voluntarily.

12.6 Appendix 6 – Approving & Finalising Roster Escalation Process

**Approving a Roster**

All Ward Managers, Locality Managers, Modern Matrons and Heads of Service are written to advising of rosters that haven’t been published 6 weeks in advance.

All units that have not had rosters approved 3 days after the deadline will be reported to OMT and LMGBs Monthly.

**Finalising a Roster**

Two / Three days before the deadline, all Ward managers and modern matrons will be written to advising them of the deadline.

At 9 am on the 6th All Heads of Service, Ward Managers, Locality Managers and Modern Matrons are written to advising of rosters to be finalised.

At 1pm Heads of Service will be contacted directly to advise the units have yet to be finalised.

All units that have not finalised by 3pm will be reported to OMT & LMGB’s Monthly.
12.7 Appendix 7 – Roster Change Control Process

Roster Reviews (with Accountant, Locality Manager, Modern Matron in attendance)

- Completes Roster Review Report

Notification of Service Change

- Agreed locality accountant and locality manager
- Informs ISM

All other Changes

- Logs formal change control request to RADAA

Change assessed and updated on Healthroster
12.8 Appendix 8 – Create, Approve and Finalise Process Flow

Create, Approve and Finalise a Roster Process Flow

7 Weeks before roster period commences

- Create Roster from Template
- Approve or reject employee requests for Days Off and Duties
- Approve or reject any pending unavailabilities Annual Leave/study Leave
- Ensure all information regarding new starters, leavers and known and contract changes are correct
- Run Auto roster. (In order: Personal Patterns; Nights; Days)
- Manually assign remaining duties
- If previously agreed requests prevent you from completing the roster, these must be revisited and amended if needed
- Review the Time Owning balances and ensure all staff are fulfilling their contracted hours
- Review all of the unfilled shifts and co-ordinate with other suitable wards to fill these with available staff. Retest rules.
- Partially Approve Roster – review the roster Analyser data

6 Weeks before roster period commences

- Fully Approve Roster
  - Ideally this should be done by Modern Matron or Locality Managers
- Review all of the remaining Unfilled shifts and send to Bank if required

On-going actions following Approval/Publication of Roster

- Manage daily exceptions daily, Enter sickness; send shifts to bank to cover and cancel shifts not to be covered
- Update roster with any changes daily eg: time adjustments shift swaps.
- Finalise Roster except own shifts.
  - It is recommended to complete this on a weekly basis, at a minimum this must be completed monthly
- Finalise the Ward Managers shifts on roster.
  - This should be done by Modern Matron or Locality Manager.

Nurse in Charge – identifies shortfall in staffing. Consideration to be given to:

• Cancelling non-essential activities
• Seek redeployment of staff from other areas
• Request additional bank staff where appropriate

Has this resolved the situation?

**Yes**

Advise the Ward Manager and or Modern Matron of the steps taken to resolve.

**No**

9-5 Monday to Friday:

Notifies either the Modern Matron or the Locality Manager of the short term situation at earliest opportunity, verbally followed by email

Out of Hours:

Notify the 1st oncall manager of the short term situation.

Modern Matron / Locality Manager Assesses the situation based on the information given and checks all initial steps implemented. Maintain ongoing

Modern Matron / Locality Manager / 1st oncall raises the short term situation with wider management team to establish any available resources that could be utilised to resolve this situation. Redeploy staff from other areas if available. Maintain ongoing communication with all those concerned

Has this resolved the situation?

**Yes**

Provide an email report on the situation and the steps taken to resolve to Head of Nursing / Head of Service. Ensure any remaining concerns are highlighted

**No**

Modern Matron / Locality Manager to verbally escalate to Head of Service, Head of Nursing, Chief Operating Officer/Director of Nursing and Governance. 1st on call to notify 2nd on call of situation.

Verbal report MUST be accompanied by a DATIX incident outlining the staffing shortfall (delegate where necessary)

Centralised Approval Team - Monthly overview to be incorporated within the Safe Staffing report that highlights those incidents that have been raised linked to staffing.

DoN Raises the issues from the escalation report at EMT and Board as appropriate to provide trustwide overview of emerging issues.

Head of Service / Head of Nursing / CoO / DoN consider use of trust wide resources, business continuity plans and ‘stop the line’ type discussions held at this level.
