

## PUBLIC MEMBERSHIP DATABASE

As a requirement of being a Foundation Trust it is essential to have a public membership. A database of this membership is therefore held by the Trust.

Details of the database will be released on a request only basis and will take into account those members who have opted to have their details removed from the viewable public register.

The register will only contain details of names and constituency, no other personal information can be provided.

To view a copy of this register please contact the Trust Secretary's team on 01325 552314.
